

Pause

Three steps, revealed one at a time.

- ▶ Parse the source into tokens.

Pause

Three steps, revealed one at a time.

- ▶ Parse the source into tokens.
- ▶ Expand macros and build paragraphs.

Pause

Three steps, revealed one at a time.

- ▶ Parse the source into tokens.
- ▶ Expand macros and build paragraphs.
- ▶ Break lines and pages.

Item overlays

- ▶ Always visible from the first slide.

Item overlays

- ▶ Always visible from the first slide.
- ▶ Appears on the second slide and stays.
- ▶ Also from the second slide onwards.

Item overlays

- ▶ Always visible from the first slide.
- ▶ Appears on the second slide and stays.
- ▶ Appears on the third slide.
- ▶ Also from the second slide onwards.

Only

On the first slide this sentence is typeset and the alternative text is absent from the page.

This closing paragraph is on both slides.

Only

On the second slide the alternative text is typeset instead, and it is longer so that it takes one more line than the first version did.
This closing paragraph is on both slides.

Uncover and alert

The engine is incremental: it keeps the layout of every unchanged paragraph.

The line after the uncovered paragraph.

Uncover and alert

The engine is **incremental**: it keeps the layout of every unchanged paragraph.

This paragraph is invisible on the first slide but its space is reserved, so the sentence below does not move between the two slides.

The line after the uncovered paragraph.

Onslide

First part, on every slide.

Onslide

First part, on every slide. Second part, from the second slide.

- ▶ A bullet that comes with the second part.

Onslide

First part, on every slide. Second part, from the second slide.

- ▶ A bullet that comes with the second part.

Third part, from the third slide.

No overlays

A frame without overlay specifications produces exactly one page.
